Experience

Has the knowledge of Adobe Acrobat, MS Office, Paint.net, Google Drive, Figma, CSS and Visual Studio. Has basic Adobe Illustrator, Photoshop, Miro, HTML Java.

Several present projects to update it from fall 2021 course and requesting additional work.

Project

Sep, 2021 — Present

Drexel Interface Design - Atomic Design

- Introduce the Atom and Molecules as UI components to an interface's key components
- Individual project: use Figma to redesign a heavy content website and develop a wireframe for a website, tablet, and mobile
- Revamped the homepage, as well as the website's flow and navigation menu

Sep, 2021 — March, 2021

Web Design Project

- Utilizing only HTML&CSS and created a responsive website that functions properly
- Established the website and built or designed it
- Updated and integrated the website as it can perform its functions

Dec, 2021 — Dec, 2021

Design for Media I - Animation Design

- Created an animation design concept and brainstormed ideas
- Assured that the animation was completed within the one-week deadline
- Construct an animation timeline in Photoshop with one thousand frames

Relevant Experience

June, 2019 — Aug, 2019

George Miles & Buhr, LLC

Salisbury, MD
Scanning Project

- To oblige the employees with computer skills to solve the scanning and technical issues
- Oversaw copying the architectural and engineering blueprinted through the scanners to save into computer files
- Assigned the blueprint, used the scanned skill to do the work effectively, and scanned thousands of blueprints.

Jan, 2015 — April, 2020

Hunan Palace Restaurant

Salisbury, MD
Packager

- Provided the packaged food into bags, then deliver it to the cashier
- Ensured to organize the food bags and manner consistent with the quality of the restaurant
- Arranged the packaged the food for quality and accuracy
